EXPERIENCE

FRONT END DEVELOPER - Trabajo en Digital | Mar-2023 - Present | Mexico, Remote

- I am part of the Front-End team at Trabajo en Digital, a leading online job search platform in Mexico that uses an algorithm to match professionals, companies, and job openings to measure their compatibility.
- I collaborate with an international team to recreate the front-end design based on Figma, providing ideas and suggestions to enhance the user experience and adhere to SEO best practices.
- I use TypeScript to apply good programming practices, React Query for state management and data fetching, and Tailwind CSS to style components, incorporating external packages such as React-Hook-Form, HeadlessUI, and Shadcn/UI, adapting them to the platform's needs.
- I efficiently coordinate remote work using Git, generating descriptive reports of modifications in the overall project code with the Scrum methodology.
- I implemented Server-Side Rendering (SSR) with Next.js, which improved the efficiency and performance of the website.

SALES EXECUTIVE - Homify | Oct-2021 - Feb-2022 | Berlin, Germany

- Assisted company clients in improving their SEO following best practices.
- Conducted SEO analysis using tools like Google Analytics and Lighthouse to help clients improve their rankings.

INTERNATIONAL PROCUREMENT AGENT - Yourwatches APS | Sep-2020 - May-2021 | Copenhagen, Denmark

- Assisted in onboarding five new employees in procurement and sales.
- Provided customer service in English.

PURCHASING MANAGER / ADMINISTRATIVE ANALYST

System SA / Soriano HNOS SACEI / Lancar SA / Vaguitas SRL | Feb-2020 – Jul-2017 | Córdoba Capital, Argentina

- Data storage, retrieval, and manipulation. -Modified existing software to fix errors and optimize efficiency. -Prepared detailed reports. -Managed clients and suppliers.
